

# RAPTOR

## GFRG GLASS FIBER REINFORCED GYPSUM ACCESS DOOR

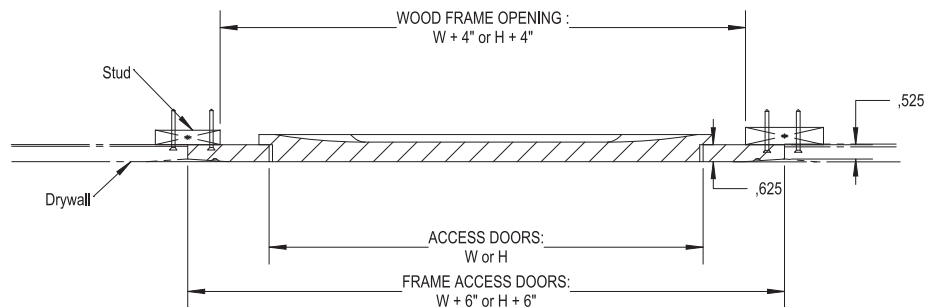

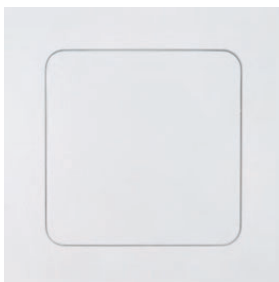

The **Raptor Series GFRG** Access panel is specially designed with rounded corners for a smooth finish. Since it is constructed with lightweight, glass fiber reinforced gypsum, it blends perfectly with drywall surfaces. Once painted, it creates an aesthetically pleasing finish. The gravity based panel, with removable (push up style) door, makes it ideal for drywall ceiling applications (only).

### DESCRIPTION
